

Outdoor Ed Classes

Covenant Harbor Outdoor Ed Classes are customized to achieve the goals your group wants to accomplish. Our expert staff will work with you in the planning process to determine the best fit classes for your group, taking into account your group size, age of students and educational requirements. Most classes are included as part of your package. We customize and weave these topics into the day's activities, at about an hour in length per class.

Below are the class topics to choose from that may be of interest to your students:

Archery: Learn the parts of the bow and arrow and practice aiming for your target at our archery range.

Mammals/Thicket: Explore the characteristics of mammals, discover some that are common to our region, and play a predator - prey game in the woods.

Orienteering: Discover how to use a compass and then use one to navigate our orienteering course through the forest with a partner.

Lake Hike: Covenant Harbor is located on Geneva Lake, a large clear lake that is the focal point of the city of Lake Geneva. Investigate the history of the lake as you walk the path and observe the extravagant houses and estates. While on the hike, your students will also learn about the importance of the Geneva Lake water and filtration systems.

Basic Survival: Learn how to handle a survival situation and students will work as a team to build a shelter in the woods.

Tree Study: Explore why trees are important, study trees up close, and learn to identify a few of our common tree species.

Tree Swing: Located on the deck of a tree house in our Kishwauketoe area, this activity takes participants for a gentle swing in a wooded clearing.

Outdoor Cooking: Discover how outdoor cooking is similar and different from cooking in ovens and microwaves. Cook your own special treat over a campfire. Ask about our different cooking options!
Class supplies are \$2.00 per person.

Fishing: Investigate fish anatomy and spend some time fishing with drop lines from one of our piers on Geneva Lake. *(Available when piers are in, typically mid May - October)*

Fire Building: Explore what makes a good fire and students will build a small fire using resources they find in the woods.

(Classes continue on next page...)

Outdoor Ed Class Topics continued...

Canoeing: Discover how to navigate the water in a canoe and spend some time canoeing with a partner or two on Geneva Lake. *(Weather permitting, typically mid May - October. Also dependent on the piers being in the water.)*

Night Hike: Explore how nocturnal animals use their senses through various games and activities. *(Teacher/chaperone-led, using Covenant Harbor curriculum and supplies).*

Campfire: Design a campfire to fit your group including skits, songs and roasting s'mores. Our staff can lead a variety of songs, or we can help you set up for a night of fun! *(Can be teacher/chaperone-led, using Covenant Harbor curriculum and supplies).*

In addition to the above topics, you can also choose to add on the following Ropes Course activities:

Climbing Tower: Explore rock climbing as you scale our climbing tower, complete with a zipline at the top.

High Ropes Course: Challenge yourself and cheer on your teammates as you traverse our elements including a balance beam, swings and a cable walk to name a few.

Indoor Climbing Wall: Practice your rock climbing skills on walls made to resemble natural rocks with six main climbs of varying challenge to choose from. *(Also a great evening activity.)*

Giant Swing: Harness up and find a partner for a ride that will take you swinging. We raise you up and you pull a cord to release the swing.

Our staff look forward to working with you to craft an ideal selection of class topics for your Outdoor Ed experience at Covenant Harbor!
